

Project types that make up a transportation project list

Each “bucket” contains projects of a certain type. Selecting projects from each bucket give a transportation network that has a level of service and a cost.

A
Crosswalks
and ,
sidewalks,
lighting, etc

B
Safe School
routes

C
Walking
environment
and policies

D
Greenway/trails

E
On street
bike lanes

F
Biking
environment
and policies

G
Adds bus
service/Rides
hare/TDM

H
Improves
transit speed
and reliability

I
Improves
passenger
environment

J
Construction
of new
capacity

K
Non capacity
improvement

L
Safety

M
Neighborhood
streets

O
Accessibility

N
Maintenance

First approach project based discussed at January TC meeting

1

2

Set of criteria to rank projects

Outcome: Project list

3

A ranked list of projects

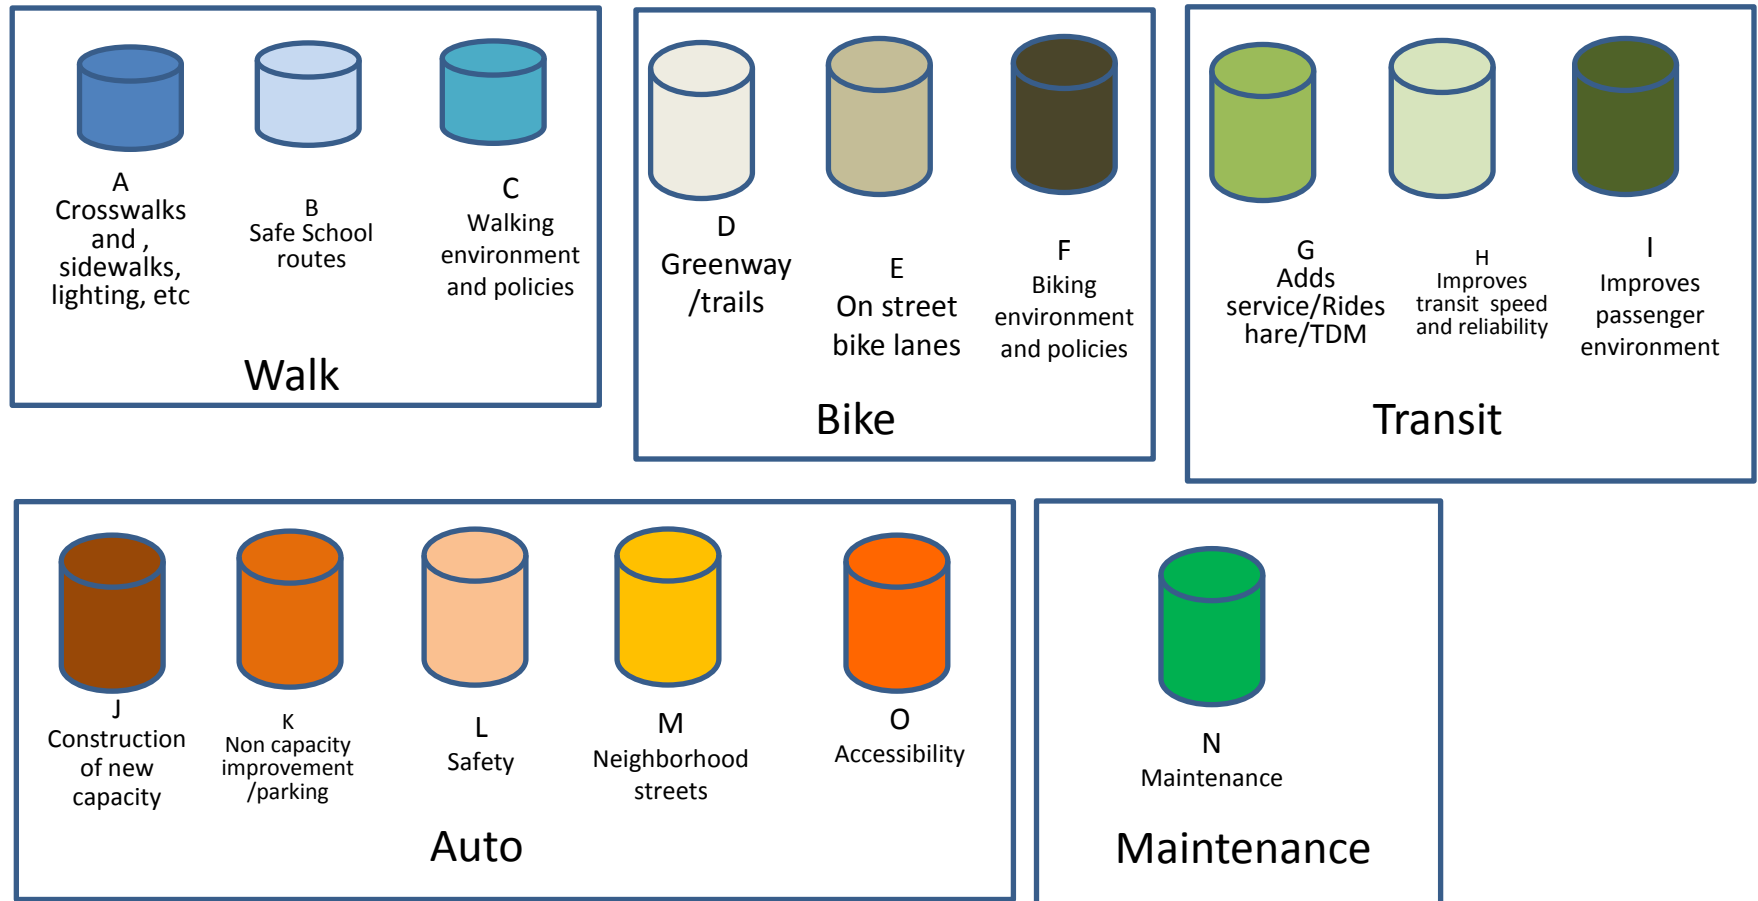

Project list by score	
Project Name	Score

4

Projects are combined into packages that make sense together

Revised approach more network based

Prior to ranking, project buckets are combined into groups by mode. The groups make sense as a network. Ranking is by mode group.

Make choices from project groups

Projects are ranked within buckets

Projects are selected from groups that make sense to assemble a complete network

The network can be represented by the stack above. It has a certain cost and a certain level of service depending on which projects are selected from each bucket and each group.

Generic mode group sheet

Each Mode has its own project sources and ranking criteria

Types of projects	Sources	Ranking Criteria
<ul style="list-style-type: none">• Coordinate with Goals and Policies to make sure that the right project types are here.	<ul style="list-style-type: none">• Suggest a project is used for almost all modes• Consider Goals and policies to get the right sources.	<ul style="list-style-type: none">• Readily available• Quantitative• separates projects• Reflects Goals and policies
Goals and Policies		
<ul style="list-style-type: none">• Make sure that project types, Sources and criteria meet the Goals and Policies		

Walk

Types of projects

A
Crosswalks
and ,
sidewalks,
lighting, etc.

B
Safe School
routes

C
Walking
environment
and policies

Sources

- ✓ Suggest a project
- ✓ Missing sidewalks
 - Crosswalks that need improvement
- ✓ Crosswalks that need lighting
- ✓ Places where we have crash experience
 - A set of projects that connect to regional transit
 - Lakeshore promenade i.e. boardwalk

- ✓ Safe school walk routes that need completion

- Promotion
- Maps
- Wayfinding
- Get trash cans out of sidewalks

Ranking Criteria

- ✓ Specific safety: based on crash record,
- ✓ General Safety: Volume, lanes, speed based on exposure
- ✓ Connectivity: Proximity to Parks, Transit, Commercial, schools ATP score
- ✓ Leads to CKC or is on CKC or Lakeshore or direct to regional trans
- Cost considerations

Draft Goal and Policy

Need a project type or a criteria for each policy

Goal T-1.1 - Form a safe network of sidewalks, trails and crosswalks where walking is comfortable and the first choice for many trips.

Draft Policies

- ✓ Measure and improve the safety of walking in Kirkland.
- ✓ Make getting around Kirkland on foot intuitive.
- ✓ Prioritize sidewalk construction in a manner that supports other goals in the Plan
- ✓ Develop world-class walking facilities along the Cross Kirkland Corridor and the shore of Lake Washington with ample connections to the rest of Kirkland
- ✓ Identify and remove barriers to walking
- ✓ Make it safer and easier to walk to school
- ✓ Improve street crossings
- ✓ Focus on regional transportation as a key destination for walking

Bikes

Types of projects

Sources

Ranking

- Specific safety: based on crash record,
- ✓ General Safety: Stress levels
- ✓ Leads to CKC or is on CKC or Lakeshore or direct to regional trans
- Cost considerations
- Completes greenway or trail link; fills gap
- ✓ Crosses arterial
- Adds connectivity where there's not much
- Cost considerations

D
Greenway/off
street

- ✓ Suggest a project
- ✓ Kirkland Greenway map
- ✓ Our adds to a greenway map
- CKC master plan

E
On street
bike lanes

- ✓ Existing bike network from ATP
- ✓ Bike network for the new neighborhoods
- Places where we have safety issues
- Projects that reduce on street stress
- Intersection connection set
- Connections to Transit

F
Biking
environment
and policies

- Add signing, improve marking
- Parking
- Wayfinding
- Counts

Draft Goal and Policy

Need a project type or a criteria for each policy

Goal T-1.2 Interconnect bicycle facilities that are safe, nearby, easy to use and popular with people of all ages and abilities.

Policies

- ✓ Create and improve on-street bike facilities
- ✓ Build a network of greenways
- ✓ Support facilities that make cycling easier
- ✓ Make it easy to navigate the bicycle network
- ✓ Measure bicycle use and safety
- ✓ Make the Cross Kirkland Corridor an integral part of the bicycle network and connect it to the region

Schedule

- March TC meeting
 - Projects further developed
 - Finance information
 - Also revised goals and policies based on 1/7
 - Ready for 4/15 Council meeting
 - Game plan for 4/26
